More Eggs Are Seized

FEDERAL SLEUTHS CONTINUE
TO ENFORCE LAW AGAINST
HOARDING

(International News Service.)
CHICAGO, Aug. 16.—Interest in the drive against the food profiteers centered today in the investigation of charges that there exists a conspiracy for the interstate juggling of foods in order to keep a large cache of foodstuffs hidden from the eyes of federal and state officials, and the probable arrest of thirty alleged profiteers.

Orders went out today to all federal agents to keep a sharp lookout for a huge quantity of foodstuffs supposed to be enroute here from places in Ohio.

BOSTON IS HOARDING.

(International News Service.)
BOSTON, Aug. 16.—Agents of the government in this district have discovered thousands of pounds of foodstuffs stored in Boston and surrounding communities, it became known today.

HOGS MAY FALL

CLEVELAND, O., Aug. 16.—In the belief of local live stock experts the long looked for break in the hog market is at hand. Hogs have been slowly declining for a week and today the market reached its lowest point in months after a break of 85 cents on the local live stock market.

WHOLESALE SEIZURES

CLEVELAND, O., Aug. 16.—Wholesale seizures of huge stocks of foodstuffs in Ohio cities were expected today, following receipt by the United States district attorney's office of instructions from Attorney-General Palmer to act on information furnished him yesterday by Governor Cox that approximately 200,000 pounds of meat and poultry are being held in Ohio cold storage houses. Federal authorities last night seized 200,000 pounds of sugar being held in storage by the C. D. Kinney company of Baltimore.

(International News Service.)

DETROIT, Aug. 16.—More than 8,000,000 eggs were seized here late yesterday by federal authorities from the Rock Island Butter Company, by whom they were held in cold storage.

MORE PRODUCE TAKEN

DETROIT, Mich., Aug. 16.—In a second raid on the Detroit refrigerating plant here today, 300,000 pounds of butter and 7,000,000 more eggs were seized by federal authorities. Eight million eggs were seized there yesterday.

HARTSELLE TRIMS THE 'Y' SECONDS

WINS BRISK CONTEST BY COUNT OF SIX TO TWO

Hartselle defeated the local Y. M. C. A. team in a good game at the local park on Friday afternoon, the visitors winning by a four run margin. Motherway hurling for the Y, was hit with men on the paths, resulting in the scoring of the six runs.

The Y tallied only twice doing the contest, both counters being made on errors by the Hartselle crew. F. Burleson was hit freely but kept the hits scattered and always tightened up in the pinches. Motherway gave one pass and hit one man. Burleson walked three, but made up for his wildness by striking out five of the "Y" batsmen. Stevenson led with the stick getting two doubles and a single out of four trips to the plate. The game was the shortest played here this season, lasting only one hour and twenty minutes. Frohoff, the old Albany-Decatur umpire, referred the bout for the amateurs.

POSTAL OFFICIALS ARE READY FOR ORDERS; PRICE LIST IS MADE PUBLIC

Orders will be taken Monday for the surplus government foodstuffs through the postmasters at all points. Postal officials here have practically completed arrangements for handling the rush of orders they expect.

To compute the final cost of articles ordered, the postage should be added to the prices shown in the list below. Parcel post charges are 5 cents for the first pound and one cent for each additional pound. Under a ruling of the postoffice department, however, the five cents will be charged only on the first article. For instance, should the consumer order bacon, beef, flour and canned goods, the total weight of all will be figured and the consumer charged with five cents for the first pound of the total weight and one cent for each additional pound.

The price list follows:

SIX STORES BOUGHT BY LOCAL SYNDICATE

Building, known as Garnett Block, Sold to Aycock, Fussell and Hendrix.

A syndicate composed of W. H. Aycock, W. W. Fussell and Clyde Hendrix today purchased six stores, known as the W. W. Garnett block on Bank street, from the City National Bank. The consideration was not announced.

The transaction was one of the largest real estate deals in Decatur in several years. It followed on the heels of several other changes in ownership of retail business houses on Bank street. Improvements of the property are planned.

PATTERSON CO. WILL BUILD FIVE STORES

Lots Purchased Today on Moulton Street. To Occupy Three of New Stores.

Patterson Mercantile Company, well known Albany firm, today announced its purchase of five lots on Moulton street, three on the west side of Second avenue and two on the east side of the avenue. Handsome business houses will be erected on the property at an early date.

The building to be erected on the three lots will be occupied by the Patterson company, it was stated.

EX-OFFICERS OF KAISER WORKING AS FARM LABORERS TO MAKE A LIVING

By ALFRED G. ANDERSON,
L. N. S. Staff Correspondent.

BERLIN, July 1.—(By Mail.)

"What has become of the German officers?" I asked a former captain in the German army, who has been clerking in the coal merchant's office since demobilization.

"Beating their swords into plowshares," he replied laconically, and referred me to the Officers' Aid Society for particulars.

The headquarters of the Officers' Aid Society at Potsdam Bridge confirmed the captain's statement literally.

"Surely," said Captain Westerkamp, late of the imperial navy and executive officer of the society, "thousands of former officers have turned farmers. Many of them are working as common farm laborers just to make a living. We call them 'volunteers,' as theoretically they have responded to the call of the farmers to fill the places of those killed in the war. But

in very many cases it is a case of necessity. Impecunious professional officers whom demobilization deprived of the only calling they were trained for had to find some means of living. Some of the well-to-do officers have chosen farming as a profession, but they rarely work as common laborers. They enter big country estates and 'apprentice' themselves for the work, each apprentice paying anywhere from 1,200 to 2,000 marks a year for his tuition and board. Naval officers particularly take to farming. Can you imagine a navigating officer piloting a harrow across a field?"

Many officers, according to Captain Westerkamp, are entering commercial pursuits as junior clerks without pay, which was the status of my coal clerk friend spoken of above.

A small percentage of officers still are following their old vocation in Noske's army of volunteers. Special

5 CAPITAL CASES SET FOR HEARING MONDAY MORNING

Judge Tate to Preside

CIRCUIT COURT WILL TAKE
UP TRIAL OF MURDER
CHARGES.

Lawrence Official to Have a
Hearing in the Vandiver
Case.

The circuit court today was resting, all of the juries having been dismissed for the week, but Monday will take up the trial of murder cases, with five capital cases set for hearing on that day. They are: Sam Gray, W. B. Lee, the two Bradford boys and Will Montgomery. Judge Floyd Tate, superintending judge of Alabama, who is presiding at the present term of court, declared today he did not know in what order the cases will be called.

Sam Gray, negro, is charged with slaying Winice Gartin, another negro, several months ago on the Burke plantation.

The Lee and Bradford cases grew out of the slaying of a man

BIG DAM IS NAMED FOR MR. WILSON; BAKER GOES BACK

The Tennessee river dam, inspected Friday by Secretary of War Baker and other government officials, has been officially designated by the government as "Wilson Dam," in honor of the chief executive, according to information received here. The name was given by Secretary Baker.

Announcement that the big dam had been christened for the nation's executive was made simultaneously by Secretary Baker, in an address delivered at Sheffield, and by the war department at Washington. It was considered as most significant and was regarded as a guarantee that the vast project at Muscle Shoals would be carried to completion, as otherwise President Wilson would not have allowed his name to be connected with it. In naming the dam for President Wilson, precedent was followed, the Roosevelt dam having some years ago been named in honor of Theodore Roosevelt, at that time the American chief magistrate.

While at the Shoals, Secretary Baker is said to have expressed his deep interest in the government projects there, and is quoted as having declared that "the government regards the completion of the dam as a matter of vital importance."

His references to the possible operation of the Nitrate Plants revealed the fact that Mr. Baker, himself, has been vitally interested in this question and that he has been instrumental in causing the far-reaching and searching inquiry which is being conducted by scientists and chemists for the government as to the possible means of operation.

The Secretary of War, Congressman Almon and other members of the party passed through the Decatur union station early this morning on the return trip to the nation's capital.

FARMERS OPPOSE PRICE-FIXING; HAVE PLANS OF THEIR OWN

Demands of Agriculturists Are Laid Before Congress Today.

(International News Service)

WASHINGTON, Aug. 16.—Farmers of the United States today laid before congress their program to reduce the high cost of living. It recommends: 1—Abandonment of all price fixing on food and clothing materials at the end of the present season; 2—All restrictions and regulations based on war powers of congress, including food administration activities, to be terminated at once; 3—Immediate termination of powers of the war trade board; 4—Removal of all internal revenue taxes on food products; 5—Revision of tariff schedule to afford

HUNTSVILLE SERIES WILL OPEN MONDAY

MADISON COUNTAINS TO PLAY
THREE GAMES ON THE
LOCAL LOT

The first of a series of three games with the Huntsville pastimers will be played Monday afternoon on the local lot, and indications are that it will be a hard-fought contest. The warriors from the spring city have strengthened since their defeat two weeks ago in a double-header by the Hanes squad. The Albany-Decatur outfit has also been braced up by the signing of new gunmen, and also by improving the infield.

Graham, who downed Lawrenceburg Monday, has returned home and is now on the hospital list. He is suffering from an infected side, due to a spider bite, and will hardly be in condition to work before the end of next week. The other moundsmen are going strong, and "Cy" will have plenty of opportunity to rest up.

Manager Hanes has announced a series of four games between Lawrenceburg and the home outfit, to be played at Lynnville and Columbia between August 21 and Aug. 30. Two meets are billed for each of the Tennessee towns.

ALLIES OPPOSED TO ARCHDUKE JOSEPH

PARIS, Aug. 16.—It is expected in peace conference circles that the power of Archduke Joseph, now head of the Hungarian government, will be short lived, and that he will be replaced by a soldier or a coalition regime. The peace conference, it is said, will not support any Hungarian government in which the archduke plays the most prominent role.

PRESIDENT WANTS A VOTE SO NATIONS CAN RESUME WORK

EXECUTIVE TIRES OF DELAY
THAT KEEPS WORLD ON
WAR FOOTING

To Explain the Pact

CLOUDY PORTIONS TO BE
ILLUMINATED WHEN COM-
MITTEE CALLS

(International News Service.)
WASHINGTON, Aug. 16.—When President Wilson confers with the senate foreign relations committee next Tuesday he will ask that body, it was learned today, to report the Versailles treaty to the senate without further delay. He will ask that the treaty be brought to a vote in order not only that the United States but the nations of the world can "get back to work."

It is understood to be the intention of the president to explain cloudy portions of the treaty along the following lines: 1.—That the treaty as a whole embodies the viewpoint of all the delegates to the peace conference; 2.—That its provisions were arrived at only after there had been a full and free discussion of all the interests involved, and that throughout the interests of the United States were safeguarded; 3.—That he reasons the treaty itself was finally framed by the "council of three"—himself, Lloyd George and Clemenceau—and the council of five, the three aforesaid named and Signor Orlando and Marquis Sazonov, was because it was found after an exhaustive trial that the deliberations of the entire membership of the conference were productive only of a "free debating society" which could not reach unanimous agreement on any of the big questions in dispute; 4.—That before the treaty finally was approved it was passed upon in plenary session by the entire allied and associated peace delegations; 5.—That the league of nations constitution was explained at a series of committee meetings in which all the great powers and selected representatives of the smaller nations participated and that this constitution represented the unanimous opinion of that committee; 6.—That the Monroe doctrine provision was inserted at the request of himself and Col. House.

Layman Preaches at Central Baptist

According to a letter received from Dr. W. P. Wilks, from Banks, Ala., where he is visiting his father, William R. Spight, one of the official board, of the Central Baptist church, will speak at that church Sunday morning, at the regular 10 o'clock service. Mr. Spight is the regular teacher of the men's Bible class of this church and is regarded as an able and thoughtful speaker on Bible themes. Dr. Wilks stated that by next Sunday all his vacation appointments would be filled and he would be on the job from then on at his own church.

\$28,000 Farm Land Sale Made Through Daily's Advertising

The King farm, on the state highway between Albany-Decatur and Athens today was sold by Hutson and McClesky to W. T. Ferguson, of Tennessee, for a consideration of \$28,000 cash. The property is said to contain some of the best farm land in Alabama. Mr. McClesky today was an enthusiastic booster of Daily advertising as a result of the sale, which was made through the firm's advertising in The Albany-Decatur Daily. The farm was advertised several days ago and the inquiry which resulted in the sale followed.

WOBBLY SUPPORT COSTS BENNETT ANOTHER CONTEST

OUTPITCHES RAY BAKER BUT
LOSES BY SCORE OF
2 TO 1

LAWRENCEBURG, Tenn., Aug. 16. (Special).—In one of the hardest fought pitcher's battles ever staged on the Lawrenceburg lot, the Albany-Decatur squad met defeat Friday at the three game series was evened up, the visitors having captured the first game to the tune of 6-3 by a timely ninth inning rally in which the big stick of N. Baker was the feature.

Bennett came back strong after his defeat in the Lynnville fracas, and should have been credited with a shut-out but errors behind him gave the game to Lawrenceburg.

Ray Baker, the ex-Vol. heaver, was hit hard but was given good support and managed to annex another victory to his string, although outclassed by Bennett. The game was tied until the last half of the ninth, the count being 1 and 1. The deciding score was put over when Steadman, playing second base for the invaders, fumbled.

F. Barnes caught the game for Albany-Decatur and gave a good exhibition. F. Barnes and Newell Baker are both improving in fielding and batting. Their percentage for the last three game stands around the five hundred mark and they show no signs of letting up.

The score by inning follows:
Albany-Decatur 00000100—1 6 2
Lawrenceburg..... 000100001—2 7 1
Batteries—Bennett and Barnes; Baker and Smith.

It was announced today that Cooke, who worked in Thursday's game for Lawrenceburg, which he lost, had been "canned" by Manager Smith.

THRIFT CLUB FOR SHOPS IS PLANNED

William O. Brumfield, field representative of the sixth federal reserve district, treasury department, savings division, addressed the men of the Louisville & Nashville shops yesterday afternoon, in his initial effort toward organizing a Thrift Stamps savings Club at the shops.

Mr. Brumfield was introduced by Geo. C. Hise and in the course of his speech, which was listened to by a large audience, said some striking things on the need of greater thrift among all Americans. The speaker declared that when Germany went to war 86 people out of every hundred of her 66,000,000 inhabitants, was not only saving, but was maintaining a regular savings account of some bank. He explained how surprised some bank French foremen in New Orleans were when they were asked for time out of the regular work recently, so that their employees might be urged to join the thrift club.

In France, according to the foremen there is no need for education along this line as it was the settled policy of every one in France to save a part of his or her income. In the United States, according to the speaker only 16 out of every hundred have a savings account. The speaker said that the habit of buying thrift stamps, was declining that at a near by Post Office from May the 18th to the 29th inclusive, only \$76 worth of stamps were sold, but that after he organized throughout the town \$41,000 was put into Savings Stamps from June 1st to 19th inclusive.

At Montgomery, it was stated that in the Atlantic and Western Railroad shops the speaker organized a 90%

club, and in the Louisville & Nashville shops there a 66 2-3% club. At the hoisery mills of Decatur, a 66 2-3% club was recently organized by the speaker. At Huntsville clubs of well on toward a thousand members were organized in some of the large cotton mills.

The only condition in joining the saving club, is that a pledge be made to buy as much as a 25 cent thrift stamp at least every week; but there is nothing binding in this, for it circumstances adverse to such a course arise, any and all are at perfect liberty to discontinue the savings account.

Mr. Brumfield expects to be in the Twin cities for a few days only, and states that his efforts are not confined to any one or two industries, but that he will set up savings clubs, in all businesses where any considerable number of people are employed. Mr. Brumfield recently returned from France.

You feed "Grain" in Winter

Why not Now?

Silage and roughage used for winter feeding are better than most pasturage. The average pasture is never balanced, never uniform throughout the season—protein being the element most lacking. Thousands of dairymen have proved that this shortage is perfectly replaced by—

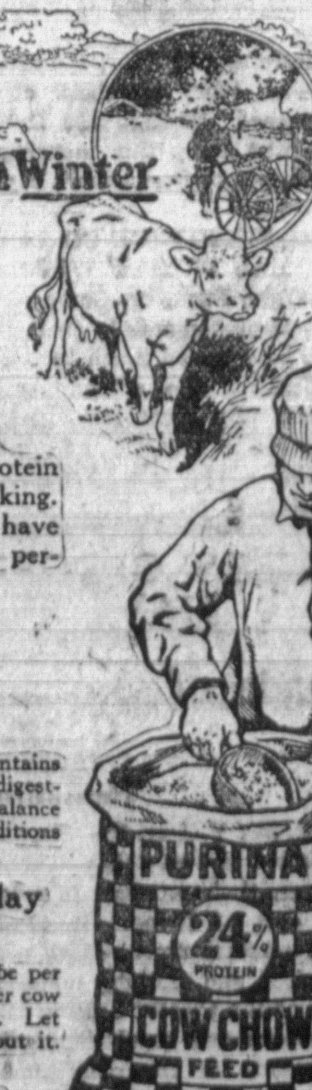

Purina Cow Chow

Every 100 lbs. of Cow Chow contains 24 lbs. of protein, 65% of which is digestible. This makes it possible to balance the cow's grass ration under all conditions and obtain an average of—

6 lbs. more milk per day per cow

—at an additional cost of about 6c per cow—a clear profit of about 10c per cow per day, or over \$3.00 per month. Let your own cows tell you more about it. Test it yourself!

Moebes' List

Here is a statement as told to us by a real estate man from the corn and wheat country of the Northwest.

"Our farm lands sell at from \$200 to \$600 per acre. They produce from 10 to 20 bushels of wheat per acre. 20 bushels is considered a good yield and 15 bushels is a fair average."

"The people can no longer pay such prices, as the land will not pay interest on the investment. They are coming South where the land is much cheaper and will produce more in dollars and cents."

Better get yours before the onrush of immigration raises the price of farms to something like par with the prices asked in the North and Northwest.

A THOUGHT FOR USE ON SABBATH
AND EVERY OTHER DAY

The spirit and impulse to know
"why" is found only among members
of the human race. And then, only
those of its members who make a
sustained effort to think care much
about the "why" of things. Because
so few care why is by no means ex-
cuse for concluding, however, that the
reason for things is not important.
"Why" is of paramount importance.
How to work, how to grow, how to
live, the other fellow's need, and
how to die happily. And we must
know why, in order to be free per-
sonalities. Why and freedom are
inter-changeable words. Our gallant
sailors and our brave soldiers recent-
ly went to war to establish the right
of every man to ask why and to know
why, against the opposite and dam-
nable doctrine of the Germans, ex-
pressed in their word "Verboten"—
(it is ordered.) Had the Allies been
beaten, about the only answer a gov-
ernment would have made to its sub-
jects when asked "why" would have
been "It is ordered." As it is we
are not only asking our government
why thus and so; but we are asking
the once secure profiteers
severely. Why? We say to them,
with war over and more food than
ever, why does it cost so much to
live? And we are examining the pro-
fiteers' receipts, imposing heavy
fines on him and sending him to pri-
son, all because we have the right
under our free government to ask
"why." England only yesterday
passed similar bills against dishonest
salesmen, and that action is declared
to be England's greatest victory over
so-called "privileged classes." More
and more governments and peoples
everywhere will exercise their privi-
lege of knowing "why." The Bible
prophecy is being fulfilled, that that
"which is whispered in the ear shall
be proclaimed on the house top." Ver-
ily also, it is coming true, that "the
truth shall make you free." All this
and more because we have a right to

and do dare to ask "Why?"
As an airplane dips down suddenly,
some times, let us go down to a deeper
thought quickly, about the significance
of the word "Why." Has not our
race gone at this matter of knowing
"why" back first? Instead of
worrying about who planted us, should
we not have worried more about how
we shall grow? Does it really matter
so much whether we know all about
our Maker or not? Is it not better
to know the food value of a plant that
to be able to analyze it according to
botany? But the "wise" have known
botany and other sciences and still had
indigestion for ages! Is it not all
wrong that we have asked manna from
heaven, instead of learning how to
raise and eat the foods we have intelli-
gently? Have we not looked for a
sign from heaven and a kind of mystic
living leading, instead of using the
common sense and simple reasoning
processes common to all men? Would
not the church do better if it was run
on ordinary business principles, in-
stead of so many long prayers being
made that God would do so and so
or us? And again should we not
rather be wanting to do something for
God and His needy ones, instead of
asking up so much time telling God
how good He is and asking Him to do
something for us? Of course there
are a lot of every day questions that
come up. Such as why did so and so
do this or that? Well, those are
questions of motive; and as our Maker
alone knows motives we should not
worry about why certain people do
certain things. That kind of asking
"why" borders on mere curiosity. And
you know Pandora's box was emptied
of all the furies, because of Pandora's
curiosity. In fact everything got out
of the box that "hadn't ought to,"
except hope. Mere curiosity should
be avoided. We should not even worry
to why we are living. The wis-
doms, on life, such as St. Paul, com-
pare life to a game or a race, and
let it go at that, try to play the game
fairly and to run the race patiently
to the end. Finally, you must know
the truth, if you play fairly and run
patiently. But Christ said He was the
Truth. Why not then do what Paul
said if you wish to know how to live
faithfully and die happily? He said
"Let us run with patience, the race
that is set before us looking ever
unto Jesus the author and finisher of
our faith." Heb. 12:3

Wonderful Recovery of Real Es-

After Taking Sulfero-Sol,
"The Wonder Medicine."

"In the interests of my friends and
mankind generally," writes Mr. James
H. Stephens, Jacksonville, Fla., "I
wish to state how much I have been
benefited by Sulfero-Sol. For several
years prior to 1915, I had suffered
with stomach trouble, rheumatism and
other complaints, being reduced in
weight from 165 lbs. to 139 lbs., and
so weak I could not walk two blocks
without being exhausted. While on a
visit to Mr. Stanley Stanton Stephens
in September, 1915, at Ramer, Ala.,
he introduced your medicine. I took
it and soon my troubles left me, my
appetite became good. Being able to
eat solid foods, I commenced to re-
gain my weight, and on 15th of Aug-
ust, 1916, I tipped the scale at 166
lbs. Now, and for two years, I can
walk from my home, 1714 Liberty
street, to my office, 54 Buckman
Building, one and one-quarter miles,
without fatigue; notwithstanding the
fact that I am seventy-six years
young."
This is one of hundreds of letters
that have been written in praise of
Sulfero-Sol, Nature's medicine that
has done so much good in the world.
Take it for Rheumatism, Indigestion,
Eczema or any other nerve or blood
disease. You will not be disappoint-

NECESSARY THAT DISTRICT
CONVENTIONS BE HELD BE-
FORE AUGUST 20.

Sunday school workers of all de-
nominations in Morgan County are
wondering whether the County will
attain the "Banner County" standard
by the time of the County Convention
which is to be held at Center Springs,
Ala., Wednesday, August 20th.

To reach this standard it is ne-
cessary that at least one District Con-
vention be held in each District of
the County since the last county con-
vention and before this convention. It
is also necessary that the Sunday
Schools send in their statistical reports
to the county secretary, Mrs. H. L.
Turner of Albany, if they have not
already done so.

LINEN SHOWER FOR

MRS. ROBERT SITTASON

Friday afternoon Mrs. Joe Wilder and Mrs. Edward Cherry entertained at a linen shower at the residence of Mrs. Joe Wilder in compliment to Mrs. Robert Sittason, a recent bride.

The home was charmingly decorated with ferns and daisies. A very pleasing feature of the afternoon, was reading by the accomplished Miss Bernardi, who was generous and found her audience ever ready for "Just another." Miss Imagine Winton gave musical selections that proved very popular.

The dainty gifts were heaped on a prettily decorated table. After the honoree had opened each gift, delicious ices were served. Mrs. Edward Cherry served punch from a decorated niche in the living room.

Mrs. H. D. McElree, of Sixth avenue, south, is reported slightly improved today.

KITCHEN SHOWER FOR BRIDE-ELECT—MISS WILLIAMSON

Quite a pleasant affair on Friday afternoon was the Kitchen Shower for Miss Williamson a bride-elect. Mrs. Ed. Polhill and Mrs. W. J. Garnett, were joint hostesses at the residence of Mrs. Garnett from five till six.

The wedding decorative motif was carried in pink and white Geraniums and pink candles.

The gathering of the friends of the bride-elect for this hour will always be a pleasing memory to her. A very unique idea was the concealment of the gifts in a very large wedding cake placed on the beautifully decorated dining table. The honoree beautifully gowned in pink georgette that was prettily embroidered in beads and with this wearing a peacock blue sash and a large pink picture hat. Her corsage was of pink roses and valley lilies. She cut the cake, and as she removed each package, a rhyme with each was attached. Ices were served in which the motif in a pink wedding veil was carried.

Those enjoying this very delightful affair were Mesdames R. Green, J. Wells, J. T. Jones, R. E. Pearson, H. D. Greer, Chas. Leftwich, P. Cartwright, F. H. Pointer, Jno. W. Jones, W. Manson, Frank Brown, A. T. Hanson, Jackson Edwards, Seneca Burr, Robt. Daniell, Sam Green, W. Wyker, D. Echols, W. H. Driskill, A. Jones, Chas. Kortrecht, Vera Austelle, L. S. Robinson, Geo. D. Williamson; Misses Marcella Collier, Sara Davis, Mary Banks, Vivian Tiltman, Iris Finley, Helen Saunders, Ruth Banks, Bessie Speake, Jakin Powell, Louise Robinson, Louise Lile, Kirk Baker.

Miss Ruby Wilson, a niece of Judge and Mrs. J. R. Stubblefield, of Eastland, Texas, and Tillman Stubblefield arrived today to visit the latter's grand-parents, Mr. and Mrs. W. F. McGwier.

Ex-Officers of Kaiser Working

(Continued from Page 1.)

mens are not uncommon in Berlin. They strut about with all the pompous majesty of effete-Prussianism—monocle and all, even glittering shoulder straps, in defiance of Nasse's order to substitute dark blue sleeve stripe for brilliant shoulder insignia to denote rank.

Occasionally one finds former army officers in strange callings. Recently I took a taxi from the foreign office to the telegraph station. I offered the chauffeur the customary tip.

"Sir, I accept no tips," exclaimed that paragon with elaborate dignity.

Such a statement amounts to a sensation in present-day Berlin. I was dumfounded.

"You see," he added, "I was an army officer." Whereupon he saluted stiffly and sped away.

SUFFERED 2 YEARS

"For about two years I suffered with malaria, fever and bad blood trying everything that was recommended to me without benefit. 'Finally someone told me about 'Number 40 for the Blood' and I purchased a bottle from our merchant, Mr. Walter Page, and it did me so much good that I kept on taking it, using in all 3½ bottles. Today I am feeling fine and do not hesitate to recommend it for any trouble for which it is recommended."

"You are at liberty to use this letter any way you desire for I know what 'Number 40' is."

H. L. BURNETT, Wakulla, Fla. "Number 40 For the Blood" is compounded from ingredients set down in the U. S. Dispensatory and other authoritative medical books as follows: "Employed in diseases of the glandular system, in blood poison, scrofula, eczema, skin diseases, constipation, stomach and liver troubles, chronic rheumatism and catarrh, mercurial and lead poisoning. Under its use nodes, tumors and scrofulous swellings that have withstood all other treatment disappear as if by magic."

Sold by Preuit-Dillehay Drug Co.—Advertisement.

You Do More Work,
You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves your appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

What Is Wise Spending?

Wise spending is the foundation of intelligent saving. We must spend to live; just as we must work to earn.

If we spend foolishly, we get less for our work, have less to save, less to spend in the future.

Wise spending means that we think before we spend. Then we buy, to our ability, what we really need today. But we wisely hold some money, for tomorrow's, or next month's or next year's needs or unforeseen emergencies.

Wise spending gives us more for our work now, and leaves more money for future spending.

It is getting full value in goods, comforts, service, advancement, and fun.

War Savings Stamps are a wise purchase.

Needles Long In Use.
Steel needles were found among the Kaffirs in Africa, and elsewhere, so that they may have had early aboriginal invention in more than one country. The earliest European eyed needles were of bone and ivory, sometimes of bronze. In 1370 steel needles were certainly being made in Nuremberg, possibly in England also, though until 1563 the raw material came from Spain.

FIRE LOSS CHARGE OF 20 PER CENT IN DECATUR REVOKED

COST OF PREMIUMS WILL BE LOWERED SAYS THE ANNOUNCEMENT TODAY

Policy Holders to Save

The Charge Will Be Effective When the Policies Are Renewed.

Advises have just been received by all agents that the 20c fire loss charge that has been imposed on Decatur insurance risks for the last two years has been removed, according to a statement made by J. R. Daniel of the Tennessee Valley Co. office in Decatur.

This means an actual saving of \$2.00 on the thousand, and \$2.20 in some instances, to all Decatur citizens carrying fire insurance and in the aggregate will represent a savings of thousands of dollars to the community on fire premiums.

While this is a local move, it comes at a welcome time when the high cost of living is proving a burdensome and the announcement will be of great interest to Decatur property owners and insurers.

Mr. Daniel states that he is exceedingly gratified to learn that his charge has been removed by the companies, as his office has been especially active for the last year in efforts to have this fire penalty charge discontinued.

It is stated that the ruling removing the charge is not retroactive and such policies carrying the charge in the premiums are not subject to any reduction until renewal when proper reduction in the premium charge will be allowed.

Capital Cases Set For Hearing Monday Morning

(Continued from Page 1.)

amed Vandiver near the dividing line of Morgan and Lawrence counties. It is expected to bring a large crowd of interested spectators to the court room. Lee was sheriff of Lawrence county and went to the home of a relative of Vandiver to arrest him. He was accompanied by the Bradfords. It was alleged that Vandiver participated in a difficulty in Moulton with a member of the Bradford family and was being sought in connection with the affray. Vandiver was killed. It is claimed by the state, on Morgan county soil and the indictment of the sheriff and the two Bradfords followed.

The Will Montgomery case is an outgrowth of the finding of the body of "Red" Nelson in the woods several miles from Hartsville.

TERRIBLY SWOLLEN

**Suffering Described As Torture
Relieved by Black-Draught.**

Rossville, Ga.—Mrs. Kate Lee Able, of his place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theford's Black-Draught."

Theford's Black-Draught will help you to keep fit, ready for the day's work. Try it! NC-131

"The year growing ancient not
Yet on Summer's death, not on
The birth of trembling winter."
—Shakespeare's "Winter Tales."

An intermediate season is Autumn, when the robin migrates and the squirrel prepares for Winter trembling on the brink. Emulating the squirrel we are already gathering and storing for the stormy days ahead when you will want altogether new things. And be assured that like the fussy, furry squirrel, we weigh each thing carefully before laying it aside, so that there will not be a bad nut in the lot.

For the present there is here everything for every dress need, selected some time ago. We are very thoughtful in providing for you. Have you ever thought of that?

Correcting an Ancient Error

"Certain names always awaken certain prejudices" said the great Frenchman, Joseph Roux. In olden times, the word "Mangle" was a source of prejudice against laundries. The name is really a misnomer.

Visit our laundry and you will look in vain for any such device as a "mangle". It doesn't exist, for the name is but the unwelcome survivor of a time that is past—something like the superstition that "thirteen" is unlucky, and that passing under a ladder is a harbinger of ill fortune.

Our ironing—the ironing that gives such an attractive and dainty finish to your linens—is all done by special presses and flat work ironers. Each is an improvement over the iron-

ing methods of other days, for there is no rubbing and none of the excessive heat that scorches.

Our washing methods, too, are similarly modern. We secure cleanliness by a clothes-saving process of sousing and rinsing in water of velvety softness, and fluffy suds of a mild, pure soap.

Visit us and you will find much that will please you; much that will dispel old mistaken impressions that have come down from a day now past.

If the heat of summer wears you down, just pack your family washing in a laundry bag and turn it over to us.

You will ask yourself after the first trial why you didn't think of it earlier.
